

REMARKS

In the Office Communication mailed July 23, 2009, Applicant was reminded that the amendments to claims 21 and 32 have already been entered into record on 4/4/08, however, the changes are still there and the status identifier still reads currently amended.

The Applicant notes the error and has changed the status identifiers for claims 21 and 32 to previously presented and removed the markings in compliance with 37 CFR 1.121.

SUMMARY

In view of the foregoing, the Applicants assert that the current application claims present allowable subject matter and the allowance thereof is requested. If any impediment to the allowance of these claims remains after consideration of the present amendment and above remarks, and such impediment could be removed during a telephone interview, the Examiner is invited to telephone Dr. John G. Babish so that such issues may be resolved as expeditiously as possible.

Dated this 18th day of August 2009.

Respectfully submitted,
Bionexus, Ltd.

John G. Babish, Ph.D.
